

## HOW TO MEASURE A RING

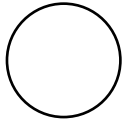

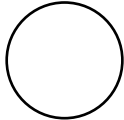

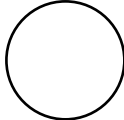

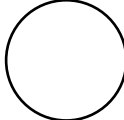

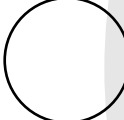

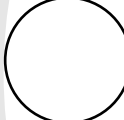

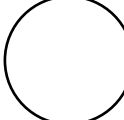

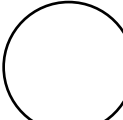

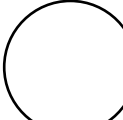

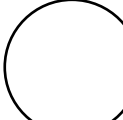

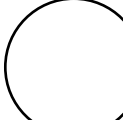

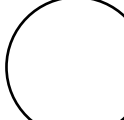

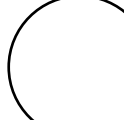

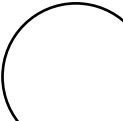

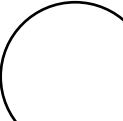

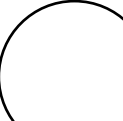

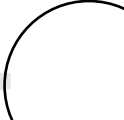

To recognize the size of our finger/ring is important to know:

The indicated sizes are from international standard

- The average size of a woman is 14/15, of a man is 28
- Fingers of right hand have about half size more than the left hand (the opposite for left-handed)

After printing this page, put on Your ring on rings listed below to find out your size.

From similar size we suggest to chose the big one.
